### Review of Operations

The Group balance sheet continues to grow and interest margins have been maintained despite a highly competitive market. As a result, net interest income increased by 22% over the corresponding prior period. Although foreign exchange trading volumes and related income remained depressed this was compensated by robust growth in domestic fee and commission income. Operating expenditure was in line with expectations and our overall cost to income ratio declined marginally to below 52%. Earnings per share at 44 tambala is an encouraging 30% higher than the 34 tambala achieved in the first six months of the last year.

### Outlook

The economic outlook for the second half of the year is uncertain. Government has communicated its intention to reduce its reliance on external grants to finance its recurrent budget. It remains to be seen whether this will necessitate increased domestic borrowing with potential implications for market liquidity and the direction of interest rates. Availability of foreign exchange will also remain a major concern not only for the bank but also its customer base. We, however remain optimistic that our diversified business lines and strong liquid balance sheet will enable group profitability to be sustained at current levels.

### Dividends

The directors have declared a first interim dividend of K654.1m or 25 tambala per share (2010:19 tambala) payable on Friday 19th August 2011 to shareholders whose names appear in the register at the close of business on Friday 12th August 2011. The register shall be closed from Monday 15th August to Wednesday 17th August 2011 both days inclusive.

**K. N. Chaturvedi** — Managing Director  
**J. M. O'Neill** — Executive Director  
**L. M. Kondowe** — Chief Financial Officer
